# DISCOVER OUTDOOR LIVING

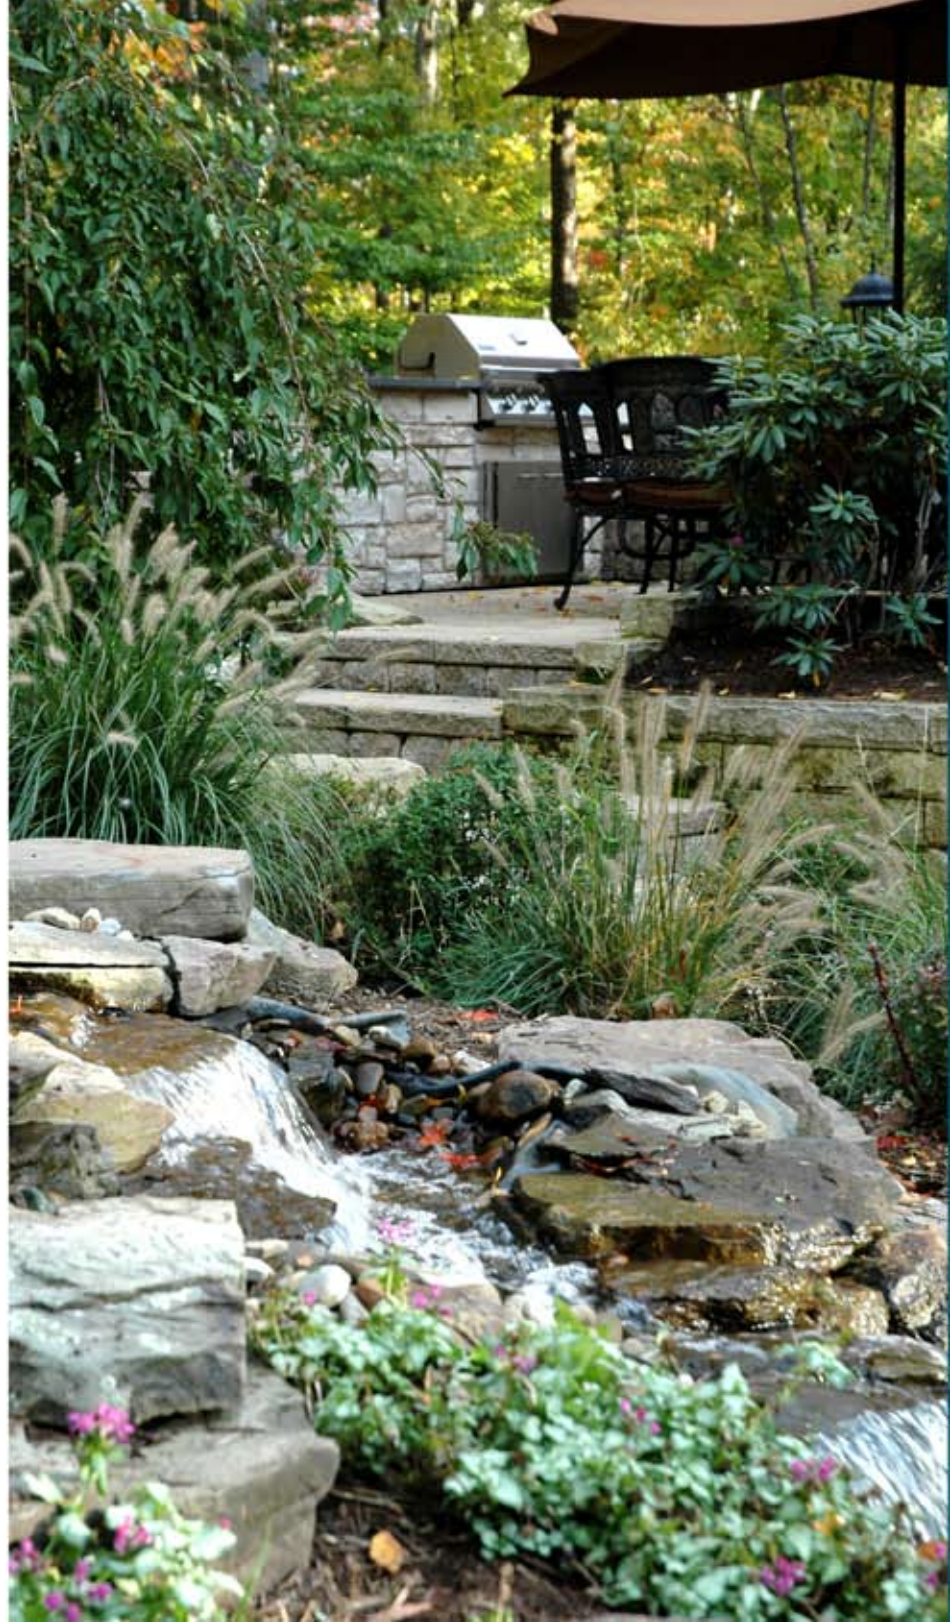

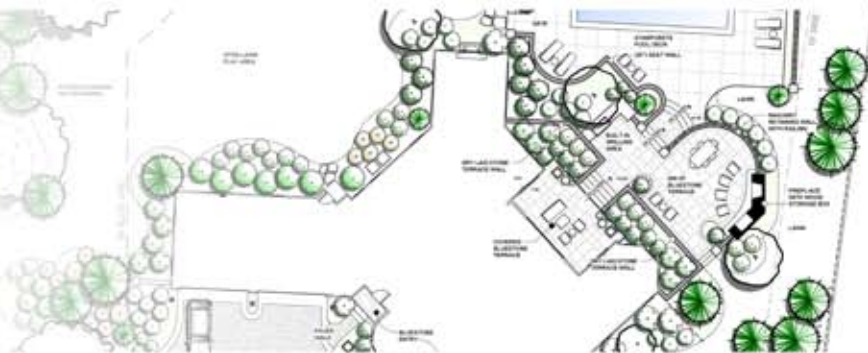

Open Your Door to  
The Charm and Space of Outdoors

Today, like never before, astute home-owners in northeast Ohio are putting more into making their homes more livable, more enjoyable. And one of the most popular remodeling projects? A beautiful outdoor room.

#### Why?

- Cook and dine with your family on your outdoor patio
- Entertain – as intimately or as large as you wish
- Enjoy a large, handsome stone fireplace
- Make a pool part of the plan and it can be a feature of many a party
- Serve gourmet snacks and dinners
- Dine outdoors and it's different, more distinctive, more relaxed
- Use the outdoor room as a sanctuary, a get-away space
- Add value to your house

## 3 Steps to Create Outdoor Living Space

- Meet with a company with a track record for doing outstanding outdoor rooms. Vizmeg Landscape has created them for more than 15 years.
- Ask the company to show you a wide range of options. Vizmeg offers everything from a small-scale patio to a complex of patio, kitchen, pool, garden — and landscaping to enhance the site.
- If you are impressed with the company's design sense and quality of their work, ask them to create a design to show you how it will look in your garden. Vizmeg provides that service.

"Your team did a spectacular job on our large landscape project. The deck, built-in grill, landscape with specimen trees. The paver patio is exceptional. Even for a perfectionist such as I am, the word is perfect. Thank you so much!"
